ABOUT YOUR ENERGY EFFICIENCY CHARGE

In 2019, Efficiency Vermont will provide the same level of service, while efficiency charges will drop by 3 percent for residential customers and stay the same for commercial and industrial customers. Efficiency Vermont and GMP are working together on new ways to best serve customers, lower costs, and cut carbon emissions with smart energy choices for their homes and businesses.

CHANGE IN ENERGY EFFICIENCY CHARGE BY PUBLIC UTILITY COMMISSION

The Energy Efficiency Charge (EEC) that appears on your electric bill each month helps Efficiency Vermont provide services and products that help Vermonters save money. In 2019, Efficiency Vermont's budget will remain the same as the prior year, resulting in flat EEC rates for commercial and industrial customers and a slight decrease in residential EEC rates. The chart below shows the new EEC rates for 2019, set by the Public Utility Commission. Take advantage of our energy services by visiting www.encyvermont.com.

Summary of Energy Efficiency Charges for 2019

Customer Class	Current	2019
RESIDENTIAL	\$0.01413/kWh	\$0.01371/kWh
COMMERCIAL	\$0.01091/kWh	\$0.01091/kWh
COMMERCIAL (with demand charge)	\$0.00707/kWh plus \$1.1383/kW	\$0.00707/kWh plus \$1.1383/kW
INDUSTRIAL (with demand charge)	\$0.005221/kWh plus 1.2132/kW	\$0.005221/kWh plus 1.2132/kW
UNMETERED STREET/SECURITY LIGHTS	\$0.01091/kV/h times the nominal wattage of the light times 360 hours per month
