

DPS1.Q77. Refer to Exhibit GMP-ER-RB-7, Attachment 1(c), footnote 1.2. Please confirm that GMP is proposing to utilize the index CPI-NE, All Urban Consumers, not seasonally adjusted, for the purpose of implementing the inflation adjustment. If not, please provide the index that GMP is proposing to use.

DPS1.A77.

Confirmed. GMP is proposing to utilize the index CPI-U, Northeast (CPI-U NE) for the purpose of implementing the inflation adjustment in future Plan periods. Both years' values required for the inflation adjustment will come from this index. This is the same index that has been used to adjust the platform on an annual basis.
