

PROPOSED CUSTOMER NOTICE

As part of its current approved Multi-Year Regulation Plan GMP filed a request for a change in base rates to be reviewed by the Vermont Public Utility Commission (PUC). As is consistent with the Plan, for the period of October 1, 2024, through September 30, 2025, GMP is requesting the PUC approve a 5.26% change in base rates. The proposed change is lower than projected last year. For an average residential customer using 550 kWh per month, this is about \$6.00 more a month. The PUC and the Department of Public Service (DPS) will review this request over the coming months, with the DPS providing recommendations to the PUC by August 1, 2024.

GMP and the PUC want to hear from you!
